

**REMEDIAL SITE ASSESSMENT DECISION - EPA REGION II**Site Name: Gen-Tape, Inc. EPA ID#: NJD981557903 State ID#:

Alias Site Names:

City: Bloomfield County or Parish: Essex State: NJRefer to Report Dated: 93/04/19 Report type: ESI Screening/SIPReport developed by: Pirnie**DECISION:**☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (Site Evaluation Accomplished - SEA)☐ 1b. Site may qualify for further action, but is deferred to:☐ 2. Further Assessment Needed Under CERCLA:2a. Priority: ☐ Higher ☐ Lower2b. Other: (recommended action) none

DISCUSSION/RATIONALE: Active facility. ECRA inspection completed in 1984; Negative Declaration approved 11/30/84. A 1991 State sampling event revealed several metals and organic compounds in on-site surface soils; however, all compounds are present at concentrations below individual health-based benchmarks. No contaminant migration off-site has been documented. The nearest drinking water well is located 1.6 miles upgradient of the site; no downgradient wells are located within 4 miles. There are no surface water drinking intakes within 15 miles. Several fisheries and wetlands are located within the 15-mile SW pathway. No further sampling is recommended.
